Noland Company in Jacksonville, Fla., appoints HVAC sales manager *Don Said joins company as location adds equipment lines*

DAYTON, Ohio, May 14, 2010 – Don Said has been appointed HVAC sales manager for Noland Company’s Jacksonville, Fla., location as the business expands to include NuTone Heating and Cooling Products, and LG mini split system air conditioners, as well as replacement parts for service and repairs.

“Bringing Don on board is part of our plan to advance the business by complementing the plumbing equipment side with outstanding HVAC lines and parts in our market area,” said Denny Walsh, Noland manager. “With his ability to build relationships and his technical knowledge, we’re very fortunate to have Don as part of the team.” The market area includes five counties in the First Coast region of northeast Florida.

Said served for seven years as manager of vendor relations for an HVAC and refrigeration wholesaler and taught those areas in the U.S. Navy.

Noland Company is the exclusive distributor for NuTone Heating and Cooling Products, which has the highest efficiency residential air conditioner in the industry with a unit rated at 24.5 SEER. The company recently began offering LG mini split air conditioners for residential and commercial use.

Noland, which has more than 70 locations, mainly in the Southeast, is a wholly-owned subsidiary of WinWholesale Inc., a leading national distributor of domestic and industrial supplies and materials headquartered in Dayton, Ohio.

About Noland Company
